Comments Please give serious thought to your comments. This evaluation will become part of the faculty member's personnel file to be reviewed by colleagues and administration when considering the instructor's reappointment, promotion, and salary increases. Your comments will be studied by the professor after the grade and performance evaluation of your work have been submitted and may be used to improve future offerings of the course.

23. Please comment on how the instructor's teaching helped your learning in this course

- He did great considering this is the first time the course is offered.
- great
- Eric was very enthusiastic and passionate about this course and that made me want to learn the material more.
- He was very open to the ideas of his students, and was able to use questions and comments as jumping-off points to help us learn, especially when that meant going back and explaining something that he took for background knowledge.

24. Please suggest how the instructor's teaching might improve:

- Just more focus on discussion than just lecture. I really enjoyed those.
- The best thing that Eric could do to improve his teaching would be to teach more. He was open with the fact that this was his first time really teaching, and I think that what he really needs is to get more comfortable being up in front of a class.

25. Other comments:

- Eric was there for his students, and always open to meet with them.
